Critical Thinking

MARMARA AJANS - FULL-STACK DEVELOPER (3 YEARS, JUN 2013 - MAY 2016)

- In my first professional experience, I independently managed the end-to-end development of B2B and B2C projects.
- Leveraging technologies such as HTML5, CSS3, JavaScript, jQuery, PHP, and MySQL, I created dynamic websites and admin panels.
- I delivered flexible solutions tailored to client requirements, successfully completing all projects single-handedly.
- This role enhanced my technical expertise and problem-solving skills significantly.

AJANS123 - FOUNDER & FULL-STACK DEVELOPER (1 YEAR 8 MONTHS, JUL 2016 - FEB 2018)

- Designed and developed a scalable Content Management System (CMS) tailored to diverse client needs.
- Built custom websites and admin panels using PHP-based frameworks, including Laravel.
- Managed business development, client relationships, technical support, and software development processes independently.
- Utilized HTML5, CSS3, JavaScript, jQuery, PHP, Laravel, and MySQL effectively across all projects.
- This entrepreneurial endeavor honed my skills in business management and software development.

LEOX TECHNOLOGY - SENIOR FRONTEND DEVELOPER (1 YEAR 10 MONTHS, MAR 2018 - DEC 2019)

- Collaborated within a 6-7 member team to deliver innovative, user-focused projects. Oversaw frontend development processes to ensure seamless technical execution.
- Trained and mentored junior developers, improving their technical capabilities and boosting team productivity.
- Played a key role in UI/UX design, creating modern, visually appealing, and user-friendly interfaces.
- Proficiently utilized HTML5, CSS3, ES6+, TypeScript, Vue 2, Nuxt, jQuery, Bootstrap 4, and Git to deliver high-quality solutions.
- Focused on performance optimization and responsive design to elevate user experience.
- Actively contributed to time management, team coordination, and technical decision-making, ensuring successful project completion.
- This experience advanced my leadership, problem-solving, and team collaboration skills.

KOÇ UNIVERSITY HOSPITAL - SENIOR FRONTEND DEVELOPER (6 MONTHS, FEB 2020 - JUL 2020)

- Led the frontend development of a comprehensive hospital management system encompassing modules for Patients, Doctors, Nurses, Reports, Medications, Pharmacy, and Scheduling.
- Applied modern technologies and performance optimization techniques.
- Adapted to Agile and Scrum methodologies, contributing to sprint planning, task management, and timely deliveries.
- Solved critical problems through analytical thinking and innovative solutions.
- Actively participated in team coordination and decision-making, ensuring timely and effective outcomes.
- Focused on developing dynamic user interfaces, optimizing UI/UX, and implementing performance-enhancing strategies.
- Conducted meticulous code reviews to uphold quality and promoted best practices across the team.
- Utilized HTML5, CSS3, ES6+, TypeScript, Vue 2, jQuery, Bootstrap 5, and Git extensively. This role refined my technical competencies, leadership, and problem-solving abilities.

KODIO - SENIOR FRONTEND DEVELOPER (7 MONTHS, JUL 2020 - JAN 2021)

- Spearheaded the end-to-end development of an admin panel for a mobile app startup aimed at brands.
- Ensured peak performance and efficiency by implementing best practices and modern development methodologies.
- Designed user-friendly and elegant interfaces following UI/UX principles.
- Leveraged HTML5, CSS3, ES6+, TypeScript, Vue 2, jQuery, Bootstrap 5, Storybook, and Git throughout the project.
- Streamlined visual testing using component-based development and Storybook, enhancing code reusability and maintainability.
- Played an active role in team collaboration and communication, ensuring project goals were achieved on time.
- This experience strengthened my expertise in contemporary technologies and performance-driven development.

TEKNASYON - SENIOR FRONTEND DEVELOPER (4 YEARS, JAN 2021 - DEC 2024)

- Independently took full responsibility for the end-to-end development of critical websites such as Getcontact (getcontact.com), Zotlo Store (zotlo.store), Zotlo Partners (partners.zotlo.com), VerifyKit (verifykit.com), VerifyKit Docs (docs.verifykit.com), Getcontact Premium (premium.getcontact.com), and Getcontact Blog (blog.getcontact.com), along with the development of various landing pages.
- My strong ability to execute and complete projects, coupled with my expertise in optimizing designs using tools like Figma and Zeplin, played a key role in the successful completion of these projects.
- I implemented the highest level of performance and design excellence by following responsive design principles, utilizing mobile-first design to guarantee seamless cross-device experiences.
- I made significant contributions to high-priority projects such as Getcontact Business (business.getcontact.com), Zotlo Console (console.zotlo.com), Getcontact eSIM (esim.getcontact.com), Getcontact Social Credit, and VerifyKit Web SDK, where I was an integral part of the team developing landing pages and admin panels.
- My contributions spanned across API integration, ensuring a scalable architecture for better system performance and user experience.
- I worked closely within a dynamic, cross-functional team, bringing together different skill sets to create modular code, optimize workflows, and focus on delivering solutions that enhance the overall user experience.
- Proficiently utilized HTML5, CSS3, ES6+, TypeScript, Vue 2, Vue 3, Nuxt, Webpack, Vite, Tailwind, Bootstrap 5, Storybook, Vitest, Cypress and Git to deliver high-quality solutions.
- Utilized Agile methodologies for project management, actively engaging in cross-functional teams to ensure collaboration and timely delivery.
- Facilitated onboarding for new engineers, improving productivity through the creation of detailed documentation, architectural solutions, flow charts, diagrams, and roadmaps.
- Established coding standards and code review practices, ensuring code quality standards and reducing bugs.
- Introduced a test-driven development culture by implementing unit testing frameworks like Vitest and end-to-end testing frameworks such as Cypress, ensuring comprehensive coverage and delivering high-quality software.
- Implemented SEO optimization strategies to enhance project visibility and maintain best practices in security.
- Contributed to code refactoring initiatives to improve code readability, maintainability, and performance.
- Applied automation tools and build tools like Webpack and Babel to streamline development processes.
- This role showcased my strengths in executing high-priority projects, leading effective team planning, engaging in prioritization discussions, and fostering collaborative teamwork, consistently achieving on-time project delivery while maintaining a strong focus on user experience (UX) design and code quality.
